DETAILED ACTION

Election/Restrictions

1. Claims 14, 18 and 20-26 remain withdrawn from further consideration pursuant to 37 CFR 1.142(b) as being drawn to a nonelected invention, there being no allowable generic or linking claim. Election was made without traverse in the reply filed on 24 March 2005.

Claim Rejections - 35 USC § 103

- 2. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:
 - (a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negatived by the manner in which the invention was made.
- 3. This application currently names joint inventors. In considering patentability of the claims under 35 U.S.C. 103(a), the examiner presumes that the subject matter of the various claims was commonly owned at the time any inventions covered therein were made absent any evidence to the contrary.

 Applicant is advised of the obligation under 37 CFR 1.56 to point out the inventor and invention dates of each claim that was not commonly owned at the time a later invention was made in

order for the examiner to consider the applicability of 35 U.S.C. 103(c) and potential 35 U.S.C. 102(e), (f) or (g) prior art under 35 U.S.C. 103(a).

4. Claims 1-13, 15-17 and 19 are rejected under 35 U.S.C. 103(a) as being unpatentable over Gilding et al (U.S. Patent 4,704,130 A) in combination with Gogolewski (U.S. Patent 4,770,664 A) for the reasons of record.

Response to Arguments

- 5. Applicant's arguments filed on 06 February 2006 have been fully considered but they are not persuasive.
- 6. Applicant argues (pages 2 and 3) that Gilding et al do not teach the claimed "biocompatible block copolymer including one or more elastomeric blocks and one or more thermoplastic blocks". Examiner responds that while Gilding et al specifically cite polyurethane (or spandex) copolymers, Gilding et al is not limited to this specific example, and Gilding et al teach copolymers (of biocompatible material) having hard and soft segments, which meets the claimed limitation.
- 7. Applicant argues (page 3) that Gogolewski does not teach a porous support. Examiner responds that Gogolewski does teach a porous support (col. 2, lines 51-60).
- 8. Applicant argues (pages 4 and 5) that neither Gilding et al nor Gogolewski teach the limitations set forth in instant claims

4, 5, 13, 15-17 and 19. Examiner responds that these limitations would have been obvious to one of ordinary skill in the art at the time the invention was made in view of the disclosures of the cited references principally in order to produce a desired final product (e.g., a prosthetic device).

Conclusion

9. THIS ACTION IS MADE FINAL. Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
